PREFACE.

THE insertion of a Jaina text in the publications of the Pāli Text Society will require no justification in the eyes of European scholars. For them all Jaina documents would have an interest of their own, even if they did not throw a light on the times, or the moral and intellectual world, in which Buddha lived. But it is possible that Buddhist subscribers, who aid our labours by their accession to the Pāli Text Society, and by the interest they show in it, might take umbrage at the intrusion, as it were, of an heretical guest into the company of their sacred Suttās. Yet if they look him attentively in the face, they will find there many traces that will interest them strongly, though they may not come to like them. The Nigaṇṭha Nātaputta was, it is true, an opponent, if not an enemy, of Gotama the Buddha. Still he was one of his contemporaries; and in the writings handed down amongst his successors and followers there are treated many of those questions and topics for which the superior genius of Buddha found the solutions which still form the tenets of the Buddhist Saṃgha in Burma, Siam, and Ceylon. Besides this, though the Piṭakas frequently mention the Nigaṇṭhas, yet they do not clearly describe the institutes and tenets of that sect, which played so conspicuous a part during the times of the early rise of Buddhism. A Buddhist

Bhikkhu therefore will gladly avail himself of an opportunity of studying them in one of their own books. For it is generally and justly considered incumbent on an enlightened divine to make himself acquainted with the dogmas and writings of a hostile sect, while we pity and disdain the narrow-minded fanatic who ignores, yet despises, the works of his opponents. I hope, therefore, that our subscribers in Ceylon will not think this Edition of the Âcâraṅga Sûtra an unwelcome gift, but rather look upon it, as indeed it really is, as a thing of which they will be able to make good use.

I now proceed to give an outline of the Grammar of Jaina Prākṛit by comparing it with Pāli. My remarks are only intended to assist Pāli students in their first attempt to read a Jaina book, and they have no claim to any other merit beyond their practical usefulness.

The Jaina Prākṛit is an old Indian dialect nearly related to, but decidedly more modern than, Pāli. The vowels are, on the whole, the same in both languages. They are: *a ā i ī u ū e o*; there are no real diphthongs, but each vowel forms a syllable, thus *vayai* is pronounced *va-ya-i*. Note the following differences: 1) The Prākṛit has frequently *i* for Pāli *a* when derived from Sanskrit *ṛi*, e.g. *giha=gaha*, *giṇhati ganhati*, *alaṇkiya alaṇkata*, *ukkiṭṭha ukkaṭṭha*, *kapana kivaṇa*, *hidaṇa hadaṇa*, etc. 2) In final syllables *o* is frequently represented by *e* in Prākṛit; *dhamme=dhammo*, *no no*, *ahe adho*; in the middle of words: *kareti=karoti*, *suṇeti sunoti*. 3) Final vowels are sometimes lengthened or nasalized: *teṇaṇ=tena*, *tehiṇ tehi*, *vayaṇ vadati*, *gacchejja gaccheyya*; in the latter case the short vowel is retained when disjunctive *vā* follows, e.g. *nikkhamajja vā pavisejja vā*; and the anusvāra is dropped before the same particle and before *ya=ca*: *derehi ya deriṭhi ya*. 4) The law of position that a short vowel before two consonants is equivalent to a long one before one consonant, and that a long vowel cannot be followed by more than one consonant, is observed in both languages, the latter clause even more strictly in Prākṛit than in Pāli, where *âkhyāta*, *brâhmaṇa* occur, which in Prākṛit become *akkhāta*, *bamhaṇa*. The former part of our rule occasions different spellings

of the same word in both languages, e.g. *âtâ*=*attâ*, *pâta*=*patta*, or even in Prākṛit itself: *âtâ*, but acc. *attāṇaṃ*.

The consonants in Prākṛit differ more widely from those of the sister idiom, especially if single between two vowels. In that position *k g c j t d p* (*b*) *v* are most frequently dropped or, before *a â*, replaced by euphonic *y*; witness *loo*=*loko*, *miya miga*, *loyana locana*, *gae gajo*, *kayam katam*, *hiyaya hadaya*, *niṇṇa nipuṇa*, *niyattai niṭattati*. *y* is retained only before *a â*. The surds *k kh t th* are rarely replaced by the corresponding mediae *g gh d dh*, while *ṭ ṭh p* are generally changed into *ḍ ḍh v*, e.g. *ege*=*eke*, *āghāti akkhāti*, *pāda* (*pāta*) *putta*, *tadhā tathā*, *mauḍa makuṭa*, *paḍhama paṭhama*, *lavai lapati*. *ḷ* is replaced by *l*, and *ḷh* by *ḍh*: *talāga*=*talāka*, *duḷha dālha*; *n* by *ṇ*, *maṇo*=*mano*. *kh gh th dh* (*ph*) *bh* are generally changed to *h*: *sāhā sākhā*, *dīha digha*, *tahā tathā*, *vaha vadha*, *loha lobha*; but *bh* is not unfrequently retained: *lābha*.

As regards compound consonants, Prākṛit avoids even more than Pāli to join two consonants of different classes, except *n ṇ m* with *h*, *brāhmaṇa* becomes *bamhaṇa* or *māhaṇa*, *vyākaraṇa vāgarāṇa*, *mayham majjham*, *ākhyaṭa akkhāta*, etc. It substitutes *nn* for *ññ*, *vv* for *bb*, *jj* for *yy*: *anna añña*, *sarva sabba*, *kajjati kayyati*. Initial *ñ* is changed to *n*, *y* to *j*: *nāta ñāta*, *jahā yathā*.

Prākṛit has lost little or nothing of the copiousness and variety of declensional forms preserved in Pāli. I subjoin the paradigms of the principal declensions in both languages.

Bases ending in Sanskrit in consonants have retained only some of the original forms, the rest being formed from bases ending in vowels, e.g. *rāyā* = *rājā*, Acc. *rāyaṃ*, Instr. *raṇṇā*, Gen. *raṇṇo*. Plur. *rāyāṇo*, Instr. *rāhiṇi*, Gen. *rāhiṇaṃ*.

āyā = *attā*, Acc. *āyaṇaṃ*, *allāṇaṃ*, *appāṇaṃ*, Instr. *appaṇā*, *appaṇṇaṃ*, Gen. *appaṇo*.

bhagavaṃ = *bhagarā*, Acc. *bhagaṇaṃ*, *bhagavaṇṭaṃ*, Instr. *bhagavatā*, Gen. *bhagavato*, Instr. *bhagavati*. Pl. Nom. *bhagavaṇṭo*. The other forms from base *bhagavaṇṭa*. Notice the Voc. *āuso* and *āusanto*.

pitā, *mātā*, Acc. *pitaraṃ*, *mātaraṃ*. Pl. *pitāro*, *mātāro*. The other forms from *piu*, *māu* (or in Instr. Plur. from *piḍ*, *māḍ*).

Pronouns and Adjectives are declined like nouns in *a*, *ā*, except in the following cases: Sing. Abl. masc. *taṃhā* (Gen. fem. *tise*). Plur. Nom. masc. *te*, Gen. masc. *tesaṃ* (fem. *tāsaṃ*).

Of the personal pronoun I have found the following forms: *aṇaṃ*, Acc. *mamaṃ*, Instr. *mae*, *me*, Gen. Dat. *mama*, *ma-maṃ*, *mahaṃ*, *me*, Loc. *maḍ*.

tumaṃ, Acc. *tumaṃ*, Instr. *tume*, *te*, Gen. Dat. *tara*, *tubbhaṃ*, *te*, Loc. *tumaṃsi*.

amhe, *vayaṃ*, Instr. *amhehiṃ*, Gen. Dat. *amhāṇaṃ*, *amhaṃ*, *ne*. *tumhe*, *tubbhe*, Instr. *tubbhehiṃ*, Gen. Dat. *tumhaṃ* *bhe*.

The numerals are: 1 *ege ekke*, 2 *duve donni*, 3 *tao tinni*, 4 *cattāri*, 5 *pañca*, 6 *cha*, 7 *satta*, 8 *aṭṭha*, 9 *nava*, 10 *dasa*, 11 *ekārasa*, 12 *durālasa*, *bāraha*, 13 *terasa*, 14 *cauddasa*, *coddasa* etc., 20 *visaṃ* °ā, 30 *tisaṃ* °ā, 40 *cattāvisaṃ* °ā, 50 *paññāsaṃ*, 60 *saffhi*, 70 *sattari*, 80 *asiti*, 90 *nauya*, 100 *saya*, 1000 *sahassa*, 100,000 *lakkha*, 100 *lakkha* = *koḍi*, *koḍi* + *koḍi* = *koḍākoḍi*.

The numerals 2-19 make the Inst. Gen. Loc. by adding *hi(m)*, *ṇha(ṇi)*, *su* to the bases *do*, *ti*, *cau*, *pañca*, etc. 20, etc. have in Inst. Gen. Loc. *ṛisāte*, etc.

The ordinals: 1 *paḍhama*, 2 *doḍḍa bitiya bīya*, 3 *tacca tatiya*, 4 *cauttha*, 5 *pañcama*, 6 *chaṭṭha*, 7 *sattama*, 8 *aṭṭhama*, 9 *navama*, 10 *dasama* etc., 20 *ṛisaina*, 30 *tīsaina tisa* etc.

The conjugational forms in Prākṛit have been considerably reduced, even if compared with those in Pāli. In some tenses the third persons of the singular and plural only seem to be used.

As regards the verbal bases, little difference exists between Prākṛit and Pāli except those occasioned by the above phonetical laws of the former. Observe that verbs of the 5th class (*svādi*) and *kar* take *e* instead of *o*: *suṇeti*, *kareti*, and that the *ā* of the 9th class (*kīyādi*) is generally shortened, *jāṇati*.

The Attanopadam is nearly disused, rests are: *sere*, *serate*, *seraṇṭe*. The Purassapadam is also used in the Passive (*bhāve*).

The Present (vattamānā).

<i>gacchāmi</i>	<i>gacchāmo</i> (Pāli <i>gacchāma</i>)
<i>gacchasi</i>	<i>gacchaha</i> (Pāli <i>gacchatha</i>)
<i>gacchati</i> , ° <i>atī</i>	<i>gacchaṇṭi</i> .

Thus *suṇemi*, *kaḥemi*, etc.

Imperative (pañcamī).

<i>gacchāmi</i>	<i>gacchāmo</i>
<i>gaccha</i> , <i>gacchāhi</i> , ° <i>ahi</i>	<i>gacchaha</i> , ° <i>hā</i>
<i>gacchatu</i>	<i>gacchaṇṭu</i>

The regular form of the Optative (*sattamī*) ends in *ṇjā*, and properly belongs to the 3rd person sing. *gaccheṇjā*; 2nd person *gaccheṇjāsī* (?). Another frequent form of the 3rd person ends in *e*, *gacche*, etc., while that in *iyā* is used of a few verbs: *jāṇiya*, *haṇiyā*, *siyā*. Notice also *hājā*, *kujā*, *būyā*.

The three persons of the Imperfect (*hīyattani*) or Aorist (*ajjattani*) end in *itthā* and *insu*: Sing. *gacchitthā*, Plur. *gacchinṣu* (*karēttthā*, *kareṇṣu*). Notice *hotthā*, *āhu*, *āhaṇṣu*. Irregular are the following forms: 1st person Sing. *akarissam*, *akāsi*; 3rd person Sing. *āsī*, *ḥsi*, *bhuvī*, *kare*, *pucche*; *akāsi*, *acārī*, *addakkhu*, *ahesi*, *vadāsī*.

The Future (bhavissanti), as in Pāli, usually takes *issa* and conjugates like the present, *gacchissāmi*, *gacchissāmo* etc. Other forms are: *bokkhāmi*, *rocchāmi*, *dāsāmi*; *dāhāmi*, *dāhisi*, *dāhiti*; *kāhisi*, *kāhiti* (*kar*), *pajāhisi*, *pajāhiti*. All these forms occur in Pāli too.

The Perfect (parokkhā) and Conditional (kālātipatti) are lost in Prakṛit.

The Passive is formed by *ijja* and conjugated like the present, e.g. *bujjhijjati*. Other forms of the Passive add *ya* to the root, and assimilate the two consonants as in Pāli: *vuccati*, *dissati*, *dajjati*, *katthati*, *haṇṇati* (= *haññate*), *chijjati*, *tappati*, *kīrati* and *kajjati*, *gheppati*, etc.

The Causative (kārita) is formed by adding to the root,

1. *aya*, e.g. *padisaṃvedayati*, *dalayati*.
2. *e*, e.g. *kāreti*, *khāmeti*, *vedeti*.
3. *āre*, e.g. *kārāreti*, *khamāreti*, *kināreti*, *dāreti*, *thāreti*, *phāreti*.

The present and future participles are formed as in Pāli by adding *ant* resp. *anta* or *māna* to the bases of those tenses: *gacchaṃ*, Acc. *gacchaṃtaṃ*; *gacchissam*; *gacchamāna*, *gacchissamāna*. Notice *samāna* and *santa* from root *as*.

The past passive participle is formed by adding *ta*, *na* or *ita* to the root: *diṭṭha* *mutta* *litta* etc., *bhinna* *junṇa* (= *jinṇa*), *kārīta*. All these forms are almost identical with the same in Pāli.

The future passive participles are formed by adding *tavva* (*itavva*), *añijja*, *ya* to the root, just as *tabba*, *aniya*, *ya* in Pāli: *vattava*, *karaṇijja*, *vacca*.

The indeclinable past participle has a great variety of forms. The root is compounded with (1) *tā* or *tā* *ṇam*: *manṭā* or *matṭā*, *chittā*, etc. To this (?) formation belong: *naccā* = *ñatrā*, *soccā* = *sutrā*, *hiccā* = *hitrā*. (2) *ittā* or *ittā* *ṇam*: *gacchittā*, *uragacchittā* (*ṇam*). (3) *tu*: *kaṭṭu* *āhaṭṭu*, *nimakkhu*; *tum*: *laḍḍhum*, and *tūṇa*: *viyattūṇa* from *rat*. (4) *ittu*: *jāṇittu*, *vijahittu*. (5) *ya* or *e*: *ādāya*, *ādāe*; *nisamma*, *sammuddissa*, *samārabha*, *āsajja*, *parigijjha* (*samecca atiyacca*). (6) *iya*: *dāliya*, *chiṇḍiya*, *pāsiya*, *rigiṇciya*, *visohiya*. *Anurii* from *anu vi cīṇṭiya* (?).

The infinitive takes *tum*, *um*, *itum* or *tae*, *illae* after the root *khamtum*, *pāum*, *jīritum*; *bhattae*, *pāyae*, *gacchitae*.

To illustrate the above remarks on the Prākṛit language I subjoin a Pāli translation of the beginning of the Ācārāṅga Sūtra: *sutaṃ mayā āvuso tena bhagavatā evaṃ akkhātaṃ: iha ekesaṃ no saññā bhavati, taṃ yathā: puratthimāya disāya āgato ahaṃ asmi, dakkhiṇāya vā disāya āgato ahaṃ asmi pacchimāya vā disāya āgato ahaṃ asmi, uttarāya vā disāya āgato ahaṃ asmi, uddhāya vā disāya āgato ahaṃ asmi, adho-disāya vā āgato ahaṃ asmi, aññatarāya vā disāya anudisāya vā āgato ahaṃ asmi; evaṃ ekesaṃ no nātaṃ bhavati: atthi me attā opapātiko, natthi me attā opapātiko, ko ahaṃ āsmi, ko vā ito cuto peccā bhavissāmi, aduṃ yaṃ puna jāneyya sahasammutiyā paravyākaraṇena vā aññesaṃ vā antiko sutvā, taṃ yathā, etc.*

This edition of the Ācārāṅga Sūtra is based on two very good and old MSS.

A a MS. on palm-leaves containing the text and the Commentary of Çilāṅka. It has been fully described in Dr. Bühler's Report on Sanskrit MSS., 1872-73, p. 4. The date at the end is Saṃvat 1348, being equal to 1292 A.D.

B a MS. on paper, 37 leaves, 15 lines, 'Saṃvat 1498 or 1442 A.D. It is accordingly just 150 years younger than *A*. Berlin Collection MSS. or. fol. 643. Besides these MSS. I have inspected, and occasionally consulted, three MSS. of my collection and some more of that of Berlin, all of which are considerably younger than *AB*. As all MSS. contain the same text, viz. that on which Çilāṅka commented (Çaka 798 or 876 A.D.), and which can be almost verbally reconstructed from his commentary, and as the difference between them relates only to spelling and abbreviations, not to mention clerical mistakes, I thought myself justified to dispense with comparing these MSS. throughout and noting their irrelevant various readings.

As regards the orthographical questions I can briefly refer the reader to my remarks on that point in the "Zeitschrift der Deutschen Morgenländischen Gesellschaft," v. 34, 180 fl.

There is little hope to find a self-consistent system of orthography even in the oldest MSS. ; for inconsistency in spelling is probably as old as Jaina writing. The differences between our two MSS. are chiefly the following :—

1) A more generally retains the original consonant between two vowels, while B prefers a substitute (resp. a *luk* or blank) allowed by the laws of Jaina Prākṛit. Not to extend unduly the various readings by noting every single case of difference, yet to show as much as possible the actual state of the MSS., the consonants which are retained only in one MS. are printed in italics, e.g. *vadati* is printed 'vadati' if both MSS. read thus, but 'vadati,' if A or B has *vayai*. An italicized *h* indicates that B has *dh*.

2) B has in the greater part of the work no *yaçruti* after *i, ī, u, ū, e, o*. We have, in this regard, followed the not quite uniform practice of A.

3) B prefers *i* and *u* before two consonants, while A has *e* and *o*. Where both MSS. differ, a semicircle is added to *e* and *o*, viz. *ẽ, ò*.

It must be mentioned that both MSS. are equally inconsistent in the choice between the lingual and dental nasals when initial or doubled. We have adopted the lingual only where the Sanskrit prototype has it.

Another help for my labours was the Calcutta edition of the Âcârâṅga, together with Pârçvacandra's Bâlâvabodha or Guzerati Gloss, Jinahamsasûri's Dîpikâ, Çilânka's 'Tikâ and Bhadrabâhu's Nirvyukti (Calcutta Sam. 1935). This edition is of the ordinary stamp of native publications, which generally have about the same value as a corrected MS. In the present instance, the practice of not separating the Prākṛit words, nor visibly marking the end of sentences, even of lessons and lectures, renders the book rather inconvenient for our use. Nevertheless this edition is more convenient than MSS. ; I have therefore constantly used it. Occasionally noted various readings from the text of this edition, which nearly agrees with that of A, even in minor details, are marked C.

The division of my text into paragraphs is partly my own

work. In the first Çrutaskandha a paragraph generally represents the parts into which the author of the *Dīpikā* has divided his texts, while in the second Çrutaskandha I have deviated from Jinahamsasūri's practice in order not to introduce paragraphs of too great or unequal length.

The numbers on the margin refer to the pages of the Calcutta edition. They will make it easier to identify passages and to find out where they are treated in the commentaries. The spaced passages in the first Çrutaskandha are fragments of trishtubh and anushtubh verses. A great number of passages which might have been single pādas of a ṣloka are not made visible to the eye, because they may only accidentally resemble a pāda. The very loose metrical laws of the ṣloka make it unsafe to recognize smaller parts than half a ṣloka. Sometimes half a ṣloka or a trishtubh are printed in a separate line. In all these cases the commentators treat these passages as prose, as they also sometimes do regarding whole verses.

The second part of this work will contain a glossary of the more important and difficult words together with their Sanskrit prototypes and the explanations or definitions of the commentators.

My thanks are due to Dr. ROST, Librarian of the India Office Library ; K. M. CHATFIELD, Director of Public Instruction, Bombay ; and Professor Dr. LEPSIUS, Chief Librarian of the Royal Library at Berlin ; who have most liberally and readily provided me with the materials necessary for preparing the text of this edition and the translation of it which will shortly appear in the "Sacred Books of the East."
